- Recycling Control Point – ICP for Excess Property
- Only 'Ownership' transferred to RCP; property remains at the Depot while it goes through disposal screening
- Available property is National Stock Number (NSN) property in Condition Codes A-F
- No physical screening of the material is allowed, but customers can ask for additional information or pictures of the material prior to ordering
- RCP includes almost all Federal Supply Classes (FSCs) such as: electrical and electronic hardware; industrial parts and supplies; aircraft parts; clothing and textiles; construction materials and much more
- Property is shipped to DoD customers

Current RCP Sites

Walk In Screening & Requisitioning

- Up until this point everything has been 'on line' searching and requisitioning. You still have the opportunity to physically screen our facilities and/or accomplish a 'walk in' requisition rather than doing it on line (except for RCP items).
- If you choose to complete a walk in requisition, you must have it authenticated by the ASO for the DoDAAC/UIC.
- The requisitioning DoDAAC has to have a digitally signed Letter of Authorization on file in the DLA Disposition Services Centralized File designating who is authorized to pick up
